

"Be" the Attitude...Project Sheet - - 6th Grade Religion

You are to research and create a 1½ to 2 minute "life talk" on the life and acts of someone who demonstrates Christian behavior and follows the Beatitudes. You will "become" the character. You will dress like, try to talk like, and act like your person selected. You will present the works of their life in first person as if you are actually them. Tell us the motivating factor for your life choices. For example, was there a life changing event, did you have a role model you aspired to be like, or did you get a message from God as to your life's work? Whatever the motivation for your exemplary life, or life change with service as a new priority, make certain to explain it to the audience. You will be required to have one significant prop to the life of your character as well. You may have more props if desired.

Here is a breakdown of the point value of each item:

1 ½ to 2 minutes time requirement with valuable life facts = 50 points
"Become" the character through dress, actions and words = 30 points
Discussion of motivating factor = 10 points
Life pertinent prop = 10 points

Extra Credit Option: You may bring something to hand out to the students for them to take with them that is significant to your character's life

Project presentations begin 17th-26th. You will also present your person's life during our "Living Museum" taking place during the first week of February.
